

Our snowplow company will be contacted by a designated person that has been assigned by the board and a board member will be the backup when snow removal is necessary.

If you have questions or concerns, contact the board via email only and do not go directly to Romero's team.

VDL Snowplowing Scope of Work

- Plow all roadways throughout the development and as wide as possible without damaging the cement curbing.
- Shovel/reduce berms on driveway parking access to owners lots to allow ease of owners getting into and out of their driveway. This does not cover sidewalks or any non-driveway portions of your lot. This only includes entrance to the driveway and does not include clearing of personal driveway areas.
- Clear berm into the RV storage lots.
- Clear access in front of the mailboxes to provide access for owners and mail deliveries.
- Clear walkway, stairs and ramp of upper front entry of the clubhouse.
- Plow parking area for the laundry room.
- Clear walkways to laundry room, bathroom and to the lower clubhouse entry door.
- Clear area in front of the garbage dumpster for pickup access.
- Clear berms around 6 fire hydrates

As a reminder, if you want or need more area cleared of snow on your property, it is your responsibility to hire a company to complete that work.
